

Where in the World?

History

Where in the world is Sigglesthorne?

This term we are focusing on the Victorians. Looking at how the local area has changed over the last 100 years, focusing particularly on our school.

We are going to compare our lives to those of the Victorian period with a focus on Queen Victoria and how her reign has shaped our lives today.

English and Maths

This term we are focusing on fables, the morals behind fables, comparing fables and writing our own.

Children will also look at the story for another point of view asking is their just one side to a story and relating this to their own experiences.

In Maths children are continue to develop their skills using the 4 operations, moving on to using these skills to answer reasoning questions as well as mastery.

Children are encouraged to make, draw and explore questions to develop a greater understanding of their mathematical thinking.

Geography

Through our topic "Where in the World?" we will be looking at our local area. Looking at where Sigglesthorne is in the world, what natural and man-made features surround us as well as looking at the facilities that Sigglesthorne has.

ICT

Children will be encouraged to use ICT to take photos, research information and produce team PowerPoint explaining their learning.

Art

This terms art focus is based around our topic of the Victorians and sea-side holidays.

Children will work on their sketching skills and learn how to print.

Where in the World?

D.T

Alongside our topic Where in the world is Sigglesythorpe? Children will be asked what buildings they think Sigglesythorpe needs. Children will then become architects and design their own building.

P.S.H.C.E

Year 1 and 2 will continue their work with our drama specialist looking at emotions, expressing ourselves, as well as making ourselves and our feelings heard.

Year 3 will also be looking at the importance of being unique, looking at individual talents, our emotions and how to face up to things we find hard.

R.E

We will be building on our previous learning about the world and creation providing opportunities for us to develop and explore our own big questions.

We will begin to use our own life experience and begin to consider some of the answers faith members may offer. We will focus on the story of creation, comparing it to other faiths as well as scientific theories.

Science

We will be using plastic animal toys, to sort them into different groups and learn all about carnivores, herbivores and omnivores. Look at the food chain and work out who's eating who, including humans. Questioning what animals need to survive and how we are all connected. Children will also look at our school environment asking the question what lives in our school grounds? Children will make and study a bug hotel.

Year 3 children are looking at shadows, what causes shadows and how they can be changed.

P.E

We will be exploring athletics and dance this term.

Music

Following on with our Victorian focus children will work out which instruments were popular in Victorian period. Listen to some music written in Victorian period thinking how the music makes them feel and why. As well as learning some songs from the Victorian period.
